North Carolina Wildlife Resources Commission 512 N. Salisbury Street Raleigh, NC 27604-1188

Attention: Mr. Fred A. Harris

Dear Mr. Harris:

Enclosed is a list of freshwater fish species that were collected and kept during our sampling program in the New River Estuary for MCB Camp Lejeune. The majority of the fish we kept were analyzed for chemical concentrations in their tissue, while the remainder were retained as taxonomic vouchers. Most of the fish were collected with gill nets and haul seines; electrofishing was used to collect a few of the fish species.

If you have any questions, please contact me at (412) 269-6090.

Sincerely

BAKER ENVIRONMENTAL, INC.

Aaron M. Bernhardt Environmental Scientist
