CERTIFIED MAIL RETURN RECEIPT REQUESTED

Mr. Byron Brant Department of the Navy - Atlantic Division Naval Facilities Engineering Command Code 1822 Norfolk, Virginia 23511-6287

RE: Marine Corps Base Camp Lejuene NPL Site Jacksonville, North Carolina

Dear Mr. Brant:

This letter is in response to Mr. P. A. Rakowski's letter dated April 6, 1992 in reference to the treatment of TCE contaminated groundwater from the Hadnot Point shallow aquifer.

I have consulted with our RCRA experts and offer the following position on this issue. If the wastewater enters a surface impoundment at any time in the treatment process the RCRA regulations would apply a "Applicable or Relevant and Appropriate" (ARARs) that must be met by the treatment process. Section 121(e) of CERCLA states:

Permits and Enforcement. (1) No Federal, State, or local permit shall be required for the portion of any removal or remedial action conducted entirely onsite, where such remedial action is selected and carried out in compliance with this section.

It will be necessary to meet the substantive technical requirements of CFR 264.

If you have any questions or comments, please call me at (404) 347-3016.

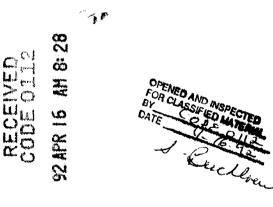

Sincerely,

Michelle M. Glenn Senior Project Manager
