DNAPL Investigation for the Surfactant Treatability Study
Operable Unit No. 15 (Site 88)
MCB, Camp Lejeune, North Carolina

Dear Ms. Landman:

Baker Environmental, Inc. (Baker) is pleased to submit two copies of the Varsol Investigation Summary Report for Operable Unit (OU) No. 15 (Site 88) Marine Corps Base, Camp Lejeune, North Carolina. This report is being submitted in accordance with the schedule identified in Modification 08.

A copy of this report has been provided to Mr. Neal Paul at MCB, Camp Lejeune. In addition, this report has been forwarded to the United States Environmental Protection Agency (USEPA) Region IV, North Carolina Department of Natural Resources (NC DENR), and Naval Facilities Engineering Service Center (NFESC) as presented in the attached transmittal letters.

A summary report of activities conducted during the Varsol investigation are provided in this report. This report includes a summary of investigations conducted at the site leading to the Varsol investigation. This report also details tasks performed in the Varsol investigation and a discussion of the findings. This report also includes support information, such as boring logs and analytical data.

Baker appreciates the opportunity to assist LANTDIV, the Activity, and NFESC on this project. Should you have any questions regarding this matter, please contact me at (412) 269-2053, or Mr. Mark DeJohn at (412) 269-6007.

Sincerely,

BAKER ENVIRONMENTAL, INC.
