

We were in Camp Lejeune from 1979 to 1981. After we filed claims and asked for confirmation later, we were told the claims were never received. After contacting Senator Joe Biden who contacted them, the claims were mysteriously found. We have been waiting to get complete medical records, but it does not look like that is going to happen, even after Senator Biden forwarded our requests. They started out by saying there were no (service records) for my daughters. The next time they referenced a social security number that does not belong to any of us and said there were no records. The only records we received were partials from 1 hospital. None of my wife's records from Lejeune (when I requested Mass) for her poor treatment were received either, just the day my daughter, Heather, was born. So we will probably submit the claims with what we have. Even for the grandchildren who have developmental issues also. I do not believe that the government will ever be forthcoming with compensation of accountability, but we can always hope. My wife has three pages of phone numbers and a couple hundred pages of documentation from all of this and still there looks like no end in sight.
