Incident No. 23092
Camp Lejeune
Onslow County

Dear Ms. Hall:

The Division has reviewed the file for the subject incident site per the USMC's June 7, 2001 request for no further action status. Information contained within the Tank Closure Report shows that contamination was encountered during tank closure activities. However, the contaminated soil was apparently removed to below regulatory action levels in effect at that time. Therefore, no further action is required in regard to the subject incident.

If you have any questions concerning this letter, please contact Bruce Reed at (910) 395-3900.

Sincerely,

David R. Holsinger
Regional Supervisor
