Subject: No Further Action
USMC-Camp Lejeune-Bldg. 33
Incident No. Pending
Camp Lejeune
Onslow County

Dear Ms. Hall:

The Division has reviewed the file for the subject incident site in reference to the information provided to this office on June 7, 2001. Information contained within the UST Closure Report performed by J.A. Jones Environmental Services shows that contaminated soil was removed to below regulatory action levels. Previous reports for this site showed that the contaminated soil encountered during filling of the tank with an inert substance was below the water table, and therefore was not indicative of "soil" conditions. Previous reports also showed that groundwater was not contaminated above 2L standards. Therefore, no further action is required at this time for the subject incident.

If you have any questions concerning this letter, please contact Bruce Reed at (910) 395-3900.

Sincerely,

David R. Holsinger
Regional Supervisor
