Incident No. 23093
Camp Lejeune
Onslow County

Dear Ms. Hall:

The Division has reviewed the file for the subject incident site. Information contained within the Tank Removal Report, received in 1995, shows that contaminated soil was detected around a former UST. Since the confirmation sampling showed the TPH concentration did not exceed the regulatory action level, no further action is required at this time for the subject incident.

If you have any questions concerning this letter, please contact me at (910) 395-3900.

Sincerely,

Bruce Reed
