**Subject: REQUEST FOR SITE CLOSURE  
UNDERGROUND STORAGE TANK SITE  
Site 600**

Dear Mr. Gwynn:

On March 29, 1996, the Division of Water Quality (DWQ), formerly the Division of Environmental Management, received your request for site closure at the above referenced site. Since soil contamination remains at the site, your request for site closure cannot be granted. However, because all known soil contamination is below the Site Sensitivity Evaluation clean up level of 1650 parts per million for heavy fuels, no further action is necessary at this time.

Should you have questions concerning this letter or require additional information, please call Patricia Coughlan at (910) 395-3900.

Yours very truly,
