Dear Mr. Reed:

Marine Corps Base, Camp Lejeune respectfully requests an extension of the due date for the Comprehensive Site Assessments (CSA) for AS-499 as listed below:

UST Site	NORR Due Date	Proposed Due Date
AS-499	2/10/2010	4/30/2010

This due date extension is requested due to the ongoing military construction project schedule at the site. Presently, no suspected contamination has been encountered. The assessment fieldwork has already begun, however additional work is required and will be conducted in late January and February 2010.

If you have any questions or need further information, please contact Mr. Nick Schultz, Environmental Quality Branch, Environmental Management Division, Installations and Environment Department, at (910) 451-9114.

Sincerely,

JOHN R. TOWNSON

Corrective Action

USMC Turbo Shaft Test Cell Facility

Incident Number: 94043  
Ranking: Unconfirmed

Dear Dr. Arnold:

Information received by the UST Section, Wilmington Regional Office in the Report of Environmental Services on November 5, 2008 has been reviewed. Information in the report confirms a release or discharge of petroleum product from the above-referenced location. This office has determined that the USMC is the responsible party for the release or discharge.

As a responsible party, the USMC must comply with assessment and cleanup requirements of Title 15A NCAC 2L .0106(c)(3) and 2L .0106(g). A Comprehensive Site Assessment (CSA) Report prepared in accordance with these requirements and the most recent version of the *UST Section Guidelines for the Investigation and Remediation of Contamination from Non-UST Petroleum Releases* must be received by this office within 90 days of the date of this notice. In addition, the USMC must submit a summary of the CSA Report to the local Health Director and the local Chief Administrative Officer in accordance with 15A NCAC 2L .0114. The summary should be submitted to these persons no later than five working days after submittal of the CSA Report to this office. Failure to comply in the manner and time specified, may result in the assessment of civil penalties and /or the use of other enforcement mechanisms.

Because a release or discharge has been confirmed, a Licensed Geologist or a Professional Engineer, certified by the State of North Carolina, is required to prepare and certify all reports submitted to the Department in accordance with Title 15A NCAC 2L .0103(e) and 2L .0111(b).

If there are any questions regarding the actions that must be taken or the rules mentioned in this letter, please contact me at the address or telephone number listed below.

Sincerely,

Bruce Reed
