**Subject: REQUEST FOR SITE CLOSURE
UNDERGROUND STORAGE TANK SITE
FC-120-2**

Dear Mr. Paul:

On March 22, 1996, the Division of Water Quality (DWQ), formerly the Division of Environmental Management, received a request for site closure at the above referenced site. Since soil contamination remains at the site, your request for site closure cannot be granted. However, because all known soil contamination is below the Site Sensitivity Evaluation clean up level of 160 parts per million for high boiling point hydrocarbons, no further action is necessary at this time.

Should you have questions concerning this letter or require additional information, please call Patricia Coughlan at (910) 395-3900.

Yours very truly,

Charles F. Stehman, Ph.D., P.G.
Environmental Supervisor I
