Camp Lejeune, NC 28542-0004

Subject: No Further Action  
USMC-Camp Lejeune-Bldg FC-241  
Incident No. 12675  
Camp Lejeune  
Onslow County

Dear Ms. Hall:

The Division has reviewed the file for the subject incident site. Information contained within the Tank Closure Report shows that contaminated soil was detected at 42 ppm as TPH-diesel. The Site Sensitivity Evaluation submitted in August 1994 shows the TPH value did not exceed the calculated regulatory action levels. Therefore, no further action is required at this time for the subject incident.

If you have any questions concerning this letter, please contact Bruce Reed at (910) 395-3900.

Sincerely,

David R. Holsinger  
Regional Supervisor
