Subject: USMC- Camp Lejeune, Bldg HP-100
Hadnot Point
Camp Lejeune, Onslow County
Incident Number: pending

Dear Mr. Raines:

On January 15, 1999, the Division of Waste Management (Division) received a report entitled "Preliminary Site Assessment" for the above referenced site. The report indicates that no petroleum hydrocarbon soil contamination above North Carolina standards was found. The report also indicates that no groundwater contamination above the NCAC 2L standards was found. Since there is no evidence of soil or groundwater contamination above action levels, the Division requires no further action at this time in regard to this incident.

Should you have questions concerning this letter or require additional information, please call Patricia Coughlan at (910) 395-3900.

Sincerely,

Patricia C. Coughlan
Regional UST Supervisor
