Re: Notice of No Further Action
15A NCAC 2L .0115(h)
Risk-based Assessment and Corrective Action
for Petroleum Underground Storage Tanks
USMC-Camp Lejeune, Bldg. M-167
Montford Landing Road
Camp Lejeune, Onslow County
Incident Number: 24006
Risk Classification: Low
Ranking: NA

Dear Ms. Hall:

The Letter Report of Findings/Site Closure Request received by the Underground Storage Tank (UST) Section, Wilmington Regional Office on June 22, 2004 has been reviewed. The review indicates that soil contamination does not exceed the soil-to-groundwater maximum soil contaminant concentrations (MSCCs), established in Title 15A NCAC 2L .0115(m), and that groundwater contamination does not exceed the groundwater quality standards established in Title 15A NCAC 2L .0202

The UST Section determines that no further action is warranted for this incident. This determination shall apply unless the UST Section later finds that the discharge or release poses an unacceptable risk or a potentially unacceptable risk to human health or the environment. Pursuant to Title 15A NCAC 2L .0115(e) you have a continuing obligation to notify the Department of any changes that might affect the risk or land use classifications that have been assigned.

This No Further Action determination applies only to the subject incident; for any other incidents at the subject site, the responsible party must continue to address contamination as required.
