Subject: Notice of No Further Action
15A NCAC 2L .0115(h)
USMC-Camp Lejeune, Bldg. M-171-1,2,3,4
Harlem Dr., Camp Lejeune, Onslow County
Incident No. 22824
Low Risk Classification

Dear Ms. Hall:

On December 14, 2001, the Division of Waste Management (DWM) Wilmington Regional Office received a Soil Assessment Report with Site Closure Request for the above-referenced site. A review of the report shows that soil contamination does not exceed the residential maximum soil contaminant concentrations established in 15A NCAC 2L .0115(m). This report was submitted in response to an additional information request from the Division's review of an UST Closure Report.

Based on information provided to date, the DWM determines that no further action is required for this incident. This determination is conditional pending completion of the public notice specified below. Once proper public notice has been given, this determination will apply unless the DWM later determines that the discharge or release poses an unacceptable risk or a potentially unacceptable risk to human health or the environment.

Ms. Nikki Hall
December 17, 2001
Page 2

Pursuant to 15A NCAC 2L .0115(e), the USMC has a continuing obligation to notify the DWM of any changes that it knows of or should know of, that might affect the level of risk assigned to the discharge or release. Such changes include, but are not limited to, changes in zoning of real property, use of real property or the use of groundwater that has been contaminated or is expected to be contaminated by the discharge or release, if such change could cause the DWM to reclassify the risk. Please note that this responsibility not only pertains to changes involving the property on which the release occurred, but to changes involving the surrounding properties as well.

Please be advised that the USMC must comply with the public notice requirements of 15A NCAC 2L .0115(k) as specified below since contaminated soil has not been restored to the lower of the soil-to-groundwater or residential maximum soil contaminant concentrations. **If public notice is not provided as required, this no further action determination will be deemed invalid.** Within 30 days of receipt of this no further action notice, the USMC must provide a copy of this notice to the following persons:

- local health director;
- chief administrative officer (i.e., Mayor, Chairman of the County Commissioners, County Manager, City Manager or other official of equal or similar position) of each political jurisdiction in which the contamination occurs;
- all property owners and occupants within or contiguous to the area containing contamination; and
- all property owners and occupants within or contiguous to the area where the contamination is expected to migrate.

Copies of this no further action notice must be sent to the persons listed above by certified mail. If it is impractical to provide notice by certified mail to the occupants of apartment buildings, condominiums, office buildings, etc., the USMC may post a copy of this notice in a prominent place where the occupants are most likely to see it.

Within 60 days of receiving this no further action notice, you must provide the DWM Wilmington Regional Office with proof of receipt of the copy of the notice or of refusal by the addressee to accept delivery of the copy of the notice. If a copy of the notice is posted, the USMC must provide the DWM with a description of the manner in which the notice was posted.

Ms. Nikki Hall

Interested parties may examine the Soil Assessment Report with Site Closure Request by contacting Ms. Nikki Hall at (910) 451-9610. The DWM Wilmington Regional Office has the Soil Assessment Report with Site Closure Request along with other site information on file and available for public review. Interested parties may arrange to review this information by contacting the regional office as listed below. In addition, comments on the Soil Assessment Report with Site Closure Request may be submitted to the regional office.

Bruce Reed

Please be advised that the USMC must close any monitoring wells or injection wells used to investigate or remediate this incident in accordance with 15A NCAC 2C .0113 and .0214, respectively. For guidance on closure of infiltration galleries, please contact the Wilmington Regional Office.

Should the USMC have any questions concerning this notice, please contact Bruce Reed at (910) 395-3900.

Sincerely,

David Holsinger
UST Regional Supervisor

Subject: Time Extension
USMC-Camp Lejeune, Bldg. M-171
Camp Lejeune, Onslow County
Incident No. 22824

Dear Ms. Hall:

The Division has reviewed the subject time extension request that was received by this office on October 26, 2001. The extension is granted. The new due date for the required report is December 31, 2001. If the report is not received by the new due date, fines and penalties may be assessed from the original due date.

If you have any questions concerning this letter, please contact me at (910) 395-3900.

Sincerely,

Bruce Reed

RE: Review of UST Closure Report
USMC-Camp Lejeune-Bldg. 171-1,2,3,4
Camp Lejeune
Onslow County, N.C.
Initial Risk: Intermediate
Incident No. Pending

Dear Ms. Hall:

Thank you for submitting the subject report to this office on November 27, 1994. The Division's review of this report indicates that it is incomplete for the following reasons:

- Line samples were not obtained from the former used oil and gasoline UST systems.
- Proper analytical methods were not utilized in some areas, notably the island areas.
- Analytical results were not found for sample I.D. number LRO158-2. This was a sample collected around the former used oil UST.

Please address the above items by May 24, 2001 in order to complete the subject report. Thank you for your cooperation regarding this matter.

Sincerely,

Bruce Reed
Hydrogeologist II
