Re: Notice of No Further Action **TC-501**
USMC-Camp Lejeune, Bldg. ~~FC-270-3,4~~
Holcomb Boulevard
Camp Lejeune, Onslow County
Incident Number (if applicable): 22842
Risk Classification: Low
Ranking: LOR

Dear Mr. Smith:

The Underground Storage Tank (UST) Closure Report received by the Underground Storage Tank (UST) Section, Wilmington Regional Office on November 27, 1995, and additional information received today, has been reviewed. The review indicates that after tank closure or soil excavation soil contamination does not exceed the regulatory action levels for Total Petroleum Hydrocarbons.

The UST Section determines that no further action is warranted for this incident. This determination shall apply unless the UST Section later finds that the discharge or release poses an unacceptable risk or a potentially unacceptable risk to human health or the environment. Pursuant to Title 15A NCAC 2L .0407(a) you have a continuing obligation to notify the Department of any changes that might affect the risk or land use classifications that have been assigned.

This No Further Action determination applies only to the subject incident; for any other incidents at the subject site, the responsible party must continue to address contamination as required.

If you have any questions regarding this notice, please contact me at the address or telephone number listed below.

Sincerely,

Bruce Reed
Hydrogeologist II
