Corrective Action

USMC-Camp Lejeune, Bldg. TT-2358
Tarawa Boulevard, Camp Lejeune
Jacksonville, Onslow County
Incident Number: 32485
Ranking: Low

Dear Ms. Arnold:

The Site Closure Report received by the Underground Storage Tank (UST) Section, Wilmington Regional Office on May 12, 2008 has been reviewed. A review of the report indicates that soil contamination does not equal or exceed the TPH action level. Since the soil contamination was excavated before groundwater was encountered in the excavation, there was no requirement for the groundwater to be tested.

Based on information provided to date, the UST Section determines that no further action is warranted for this incident. This determination shall apply unless the UST Section later finds that the discharge or release poses an unacceptable risk or a potentially unacceptable risk to human health or the environment.

This No Further Action determination applies only to the subject incident; for any other incidents at the subject site, the responsible party must continue to address contamination as required.

If you have any questions regarding this notice, please contact me at the address or telephone number listed below.

Sincerely,

Bruce Reed
Hydrogeologist II
