Incident Number: 32541
Risk Classification: Low
Ranking: L15R

Dear Dr. Arnold:

The Tank Closure Report and Site Closure Request received by the UST Section, Wilmington Regional Office on March 31, 2009 has been reviewed. The review indicates that soil contamination does not exceed the TPH action level.

The UST Section determines that no further action is warranted for this incident. This determination shall apply unless the UST Section later finds that the discharge or release poses an unacceptable risk or a potentially unacceptable risk to human health or the environment.

This No Further Action determination applies only to the subject incident; for any other incidents at the subject site, the responsible party must continue to address contamination as required.

If you have any questions regarding this notice, please contact me at (910) 796-7400.

Sincerely,

Bruce Reed
Hydrogeologist II
