Subject: RE: Camp Lejeune

No edits that I could find, Also it seems you sent the original med opinion slides back, not the ones for Camp Lejeune. Not sure what happened.
Anyway,
Dr. Cross made some significant changes to the slides.
This is what we will be discussing this afternoon, for briefing tomorrow.
The remaining materials; Way forward and initial guidance will be discussed if time permits.

Subject: FW: Camp Lejeune
Importance: High

In the Initial Guidance document, I made minor spelling and grammatical changes (not in tracked changes) and inserted a comment. In the Camp Lejeune way forward document, I made a tracked change and inserted a comment. In the powerpoint, I had a few minor changes, but the most significant change is on slide 3. Because your powerpoint is a read only, I am attaching a saved version with my edits.

Brad
