(b) (6)&(b) (6)

Hope you had enjoyable holidays

Wanted to inform you that I plan to complete the special environmental case (BVA) by next week.

Starting from next week -Jan 5th, you can resume my CLCW monthly assignment

Thanks

Parrillo, Jeffrey M. (VACO)

Importance: High

Good Morning,

Can either of you represent DMA on a call 'early next week' on Blue Water Navy. When I did a google search it seems to be related to Agent Orange exposure. Congress is under the impression that our guidance is not strong enough on this topic. The call would be with Veteran Service Organizations representatives and Congressional Stakeholders. (b) (6) is representing OPH, DMA needs a rep. Please advise. I have no other details yet.

Subject: RE: CLCW: Dec Training

Hello (b) (6)

I have an MRO training to attend the week of DEC 8.
Do we have any other alternative dates?
How are the facilities responding to send the assigned clinicians for this training?
If the response is low, perhaps we may want to schedule after the holidays

Good Morning All,

I am currently going through the process to gain approvals for the next CLCW training scheduled for Dec 8-12, 2014. I want to ensure you are still able to support this effort? If so, I will provide you with a memo to submit to you leadership. Please confirm participation.

Thanks,

Good Day:

Please see request below from SEN Tillis' staff reference Camp Lejeune water contamination.

Specifically, the staffer would like to discuss:

1. The application of the latest science, including ATSDR, IARC, NRC and others to the disability compensation claim disposition process by VA?
2. Provide or discuss the qualifications of the MDs advising that process (claims disposition process specific to , as well as the approval rate and review of previously denied claims in light of newer information.
3. Staffer is requesting an office call to discuss this in briefing format with SME.

I will further refine the specifics of the office call or see if we can do this by telephone call.

Need to start working SMEs and dates. Please let me know availability for next week or week after.

Regards

(b) (6)

Subject: RE: NRC Report

My addition to this statement:

In the NRC report, the body of evidence is limited by the inability to rule out chance and bias, including confounding, with confidence. Additionally, not all the studies provided **statistically significant results** to determine an association between the exposure and a specific health outcome.

Subject: RE: NRC Report

The 15 conditions listed in the NRC report as having limited suggestive evidence were determined as such based on literature through 2008, and does not address the body of literature from the last 7 years. Limited suggestive does not indicate sufficient data and there is no scientific basis for using this list as definitive.

In prep for the briefing with Sec VA on Camp Lejeune, I need a one liner concerning the 15 conditions of NRC report and the limited suggestive evidence. Please advise.
