Its probably easier if I give you a list of VISN not represented.

Do you have a list of SME's? If so, can we try and map those names to the VISNs to see where there are deficits.

Is there a way to ensure all VISNs have CLCW SMEs. I have been doing regional case assignments. For example VISN 23 have three treated SMEs, however none are active, so I have to send those cases to another SME. Please advise.
