RETURN RECEIPT REQUESTED

Ms. Laurie A. Boucher, P.E.
Remedial Project Manager
Department of the Navy - Atlantic Division
Naval Facilities Engineering Command
Code 1822
Norfolk, Virginia 23511-6287

Dear Ms. Boucher:

This letter is to inform you, that due to the Agency's change in Project Manager extensions for our submittal of certain review comments may be necessary. The following is a list of the document reviews that may be affected and EPA's current schedule for providing the appropriate comments:

1. DOCUMENT: The Draft RI/FS/PRAP for the Shallow Aquifer at the Hadnot Point Industrial Area Operable Unit.

SCHEDULE: EPA intends to have comments to the Navy no later than January 30, 1992 (hopefully, much earlier).

2. DOCUMENT: Draft Final Remedial Investigation Report for Hadnot Point Industrial Area Operable Unit (Shallow Soils and Castle Hayne Aquifer).

SCHEDULE: EPA will need time to conduct a complete review this document, therefore we propose the "Finalization of Primary Documents" be extended to 60 (as opposed to 30) days in this particular instance. This will prevent a "dispute resolution" proceeding while all the parties come to agreement as to the completeness of these documents.

3. DOCUMENT: Draft RI/FS Project Plans for Sites 6, 48, and 69.

SCHEDULE: The Expedited Schedule requires comments be provided to the Navy on January 14, 1992. EPA will have comments to the Navy no later than February 13, 1992.

If you have any questions concerning these matters, please call me at (404) 347-3016.

Sincerely,

Michelle M. Glenn
Michelle M. Glenn
