RE: Marine Corps Base Camp Lejeune NPL Site
Jacksonville, North Carolina

Dear Ms. Boucher:

This letter is to clarify EPA's anticipated date for submittal of comments on the Draft Final Baseline Risk Assessment for the Hadnot Point Industrial Area Operable Unit (Shallow Soils and Castle Hayne Aquifer). This document was received by EPA on December 30, 1991. It is my intention to handle this review concurrent with the review of the Draft Final RI for this area. My letter to you dated December 30, 1991 did not include an actual date when comments would be submitted. It intend to have comments on both documents (and the "Response to Comments") no later than 1/31/92. I hope this doesn't create too much of an inconvenience.

If you have any questions concerning this, please call me at (404) 347-3016.

Sincerely,

A handwritten signature in cursive script that reads "Michelle M. Glenn".

Michelle M. Glenn
