RE: Official Start Date on Document Review
MCB Camp Lejeune, North Carolina

Dear Ms. Boucher:

EPA agrees with the Navy's position that "...the official start date is the date of receipt of the last comments received.", as presented in your letter of May 1, 1991. EPA and the State of North Carolina Department of Environment, Health and Natural Resources (NCDEHNR) will coordinate their reviews to provide comments in a timely manner in accordance with the FFA.

The comment/review periods specified in the FFA are binding, the EPA and State of North Carolina will not accept extending the comment/review times outside of the procedures specified in the FFA. An area of concern relates to comments generated during the Technical Review Committee meetings and the time required to review/address those comments.

EPA does not agree that an amendment to the FFA is needed. The comment period start date was not addressed in the FFA, and EPA considers this issue to be a new item in the FFA. Therefore, we do not believe that legal counsel need be involved in reaching this decision. This letter serves as notification for EPA approval and concurrence of the Navy's position on this issue.

If you have any questions concerning this matter, please contact me at (404) 347-3016.

Sincerely yours,

Carl R. Froede Jr.
