87
(2) AC/S, Facilities memo 6240 FAC of 18 Jan 89

1. Enclosure (1) provides a means to cleanup the subject soil and barrels described in enclosure (2). Mechanisms for effecting such a contract are:

- a. Resident Officer in Charge of Construction, Jacksonville

Recommend a sole source emergency contract under cognizance of ROICC based on recent closure of Lot 203.

2. Regardless of the contractor ultimately selected, a contract having all the basic elements outlined in enclosure (1) should be developed. The original of enclosure (1) is filed at NREAD.
