Re: Contract N62470-89-D-4814
CTO-0024, Project Plan for Sites 6, 48, and 69
Camp Lejeune, North Carolina
Draft RI/FS Sampling and Analysis Plan

Dear Ms. Boucher:

Enclosed please find two (2) copies of the Draft RI/FS Sampling and Analysis Plan for Sites 6, 48, and 69, MCB Camp Lejeune. Copies of the Sampling and Analysis Plan have been forwarded to Mr. Carl Froede (EPA Region IV), Mr. Jack Butler (N.C. DEHNR), and members of the technical review committee via registered first class mail.

Please note that we have discussed and agreed upon changing the planned submittal date for this deliverable in order to rescope the field investigations at Site 6 (Lot 201) and Site 69. Rescoping of these investigations was necessary based on new information received concerning Site 6, and recommendations and input received by the U.S. Army (chemical surety investigative procedures for Site 69). The revised planned submittal date for the RI/FS Sampling and Analysis Plan is December 6, 1991 (formally November 22, 1991). I will have Baker's Contract Administrator (Ms. Suzanne Thomas) prepare a formal notification letter to Mr. Dean Koepp (LANTDIV) in order to document this change in schedule.

If you have any questions or comments, please do not hesitate to contact me at (412) 269-2016.

Sincerely,

BAKER ENVIRONMENTAL, INC.

Raymond P. Wattras
