SUBJ: MCB Camp Lejeune  
Draft Site Investigation Report  
Site 10 - Original Base Landfill

Dear Ms. Montegross:

The Environmental Protection Agency (EPA) has completed its review of the above subject document. There is one concern, because it is a landfill, land use controls should be implemented and documented in the appropriate documents to restrict any intrusive activities.

If there are any questions, I can be reached at (404) 562-8538.

Sincerely,

A handwritten signature in black ink, appearing to read "Gena D. Townsend".

Gena D. Townsend  
Senior Project Manager
