Dear Sir:

The enclosed maps are provided for your review in response to your letter dated 4 April 1991. Also, two decontamination areas have been identified for NUS use. One area is located in the Hadnot Point Industrial Area of Marine Corps Base. The second area is located at Marine Corps Air Station, New River. As previously discussed, base can provide NUS with a work station located in Building 63 near the Installation Restoration (IR) program office.

If you need any further assistance, please call Ms. Stephany Del Re-Johnson, IR Program Manager, at (919) 451-5093. We look forward to working with you in the very near future.

Sincerely,

DANNY D. SHARPE
