3 OCT 1990

Mr. Ray Humphries
514 Brynn Marr Road
Jacksonville, North Carolina 28540

Dear Mr. Humphries:

Final copies of the Installation Restoration documents for the Hadnot Point area and Sites 6, 48, and 69 at the Marine Corps Base, Camp Lejeune are being forwarded to your office under separate cover. These are the same documents which were reviewed and discussed during the July 25, 1990, Technical Review Committee meeting which have been revised to incorporate written comments received at the Atlantic Division.

Specifically, one copy each of the following documents will be mailed Federal Express on October 4, 1990: Site Summary Report, Sampling Plan, Work Plan, Health and Safety Plan, and Community Relations Plan.

Since all parties have been given previous opportunity to review and provide input to these documents, we anticipate no further comments. However, should you have any additional comments, please address them to Laurie Boucher, (804) 445-1814, prior to October 12, 1990, at which time the contractor will be initiating field operations.

Sincerely,

P. A. RAKOWSKI, P.E.
Head
Environmental Programs Branch
Environmental Quality Division
By direction of the Commander
