Re: MCB Camp Lejeune; Addendum to Final RI/FS Project Plans  
for Sites 6, 9, 48, and 69

Dear Ms. Glenn:

The referenced Project Plans were forwarded to your office on  
29 May 1992.

In our conference call with you, Ms. Herndon, Mr. Burger  
(North Carolina Department of Environment, Health, and Natural  
Resources), Mr. Radford and Mr. Paul (MCB Camp Lejeune), and  
Mr. Wattras (representing our contractor) of 14 January 1993,  
we discussed our proposed plans for further sampling and analyses  
of the deep groundwater at Site 6. As we discussed, this  
additional sampling is necessitated by the discovery of  
significant contamination in some of the deep groundwater  
monitoring wells near Lot 203 of Site 6.

You have received an addendum to the project plans via separate  
correspondence. The addendum details our proposed plans for  
additional investigation at Site 6. Please review the addendum  
to the project plans and provide comments by 10 February 1993,  
otherwise we will assume your tacit approval of these changes.  
Please direct any questions concerning this matter to  
Mr. Byron Brant at (804) 445-2931.

Sincerely,

L. A. BOUCHER, P.E.  
Head  
Installation Restoration Section  
(South)  
Environmental Programs Branch  
Environmental Quality Division  
By direction of the Commander
