RE: Marine Corps Base Camp Lejeune NPL Site  
Operable Unit 4 - Sites 69 and 74  
Jacksonville, North Carolina

Dear Ms. Berry:

EPA has received the RI/FS Project Plans for Operable Unit 4 at the subject site. This letter is to notify you that in order to meet FY93 priority commitments, the Environmental Protection Agency (EPA) will require an extension for provision of comments on the subject Project Plans to July 30, 1993. The plan has been received and is currently under review by the Agency.

Every effort will be made to expedite review of these project plans. In the meantime, all documents associated with Operable Unit 2 at your facility are receiving a "highest priority" designation to ensure no delay on the part of the Agency in meeting the Record of Decision signature date in September 1993.

If you have any questions, please call me at (404) 347-3016.

Sincerely,

A handwritten signature in black ink that reads "Michelle M. Glenn".

Michelle M. Glenn  
Senior Project Manager
