RE: Record of Decision for Site 48
MCB Camp Lejeune NPL Site
Jacksonville, North Carolina

Dear Sir:

The U.S. Environmental Protection Agency (EPA) Region IV has reviewed the above referenced decision document and concurs with the proposed "No Action Alternative" for remedial action at Site 48 as supported by the previously completed Remedial Investigation and Baseline Risk Assessment Reports.

It is understood that the No Action decision for Site 48, the New River Marine Corps Air Station (MCAS) Mercury Dump, is the final remedial action to address all media potentially affected by past disposal practices at the MCAS Mercury Dump.

Sincerely,

Handwritten signature of Patrick M. Tobin in cursive.

Patrick M. Tobin
Deputy Regional Administrator
