Navy CLEAN, District III  
Contract Task Order (CTO) 0303  
Preliminary Human Health and Ecological Risk Assessment Conceptual Evaluation Models  
Operable Unit No. 6 (Sites 36, 43, 44, 54, and 86)  
MCAS, New River, Jacksonville, North Carolina

Dear Mr. Laughmiller:

Baker Environmental, Inc. (Baker) is pleased to submit two copies of the Preliminary Human Health and Ecological Risk Assessment Conceptual Models for Operable Unit No. 6, Sites 36, 43, 44, 54, and 86, Marine Corps Air Station (MCAS), New River, Jacksonville, North Carolina. The documents provide Baker's approach for evaluating the risks associated with the above referenced sites, and identifies exposure pathways and exposure points and data needs, all of which are key elements in a risk assessment. One copy has been forwarded to Mr. Neal Paul at MCB, Camp Lejeune, and two copies each have been forwarded to Ms. Gena Townsend at USEPA Region IV, and Mr. Patrick Watters at NC DEHNR.

Please note that these documents are not under a contractual schedule. They are intended to provide LANTDIV, the Activity, and, state and Federal agencies with "up front" information to assist with the review of the human health and ecological risk assessments prepared for the Remedial Investigation report. Accordingly, please provide your comments to Baker by August 31, 1995 so that these comments can be incorporated in the draft report which is due out on October 18, 1995. We have also requested that the USEPA, NC DEHNR, and MCB, Camp Lejeune also provide their comments by this date.

A Total Quality Corporation
