Re: MCB Camp Lejeune; Modification #2 to Final RI/FS Project
Plans for Sites 6, 9, 48, and 69 based on New Site
Information

Dear Ms. Glenn:

The referenced Project Plans were forwarded to your office on
May 29, 1992.

On September 1, 1992 we received the Camp Lejeune Interim Report,
which was prepared by the Environmental Photographic
Interpretation Center (EPIC) for the referenced Installation
Restoration sites. This report provided an analyses of
chronological aerial photographs and detailed possible past
disposal activities at the sites.

On September 22, 1992 we met with you and Mr. Peter Burger of the
North Carolina Department of Environment, Health, and Natural
Resources to discuss our proposed changes to the referenced
Project Plans based on the information provided by the EPIC
report. During the meeting we proposed changes to the locations
and numbers of samples and types of analyses for the referenced
sites. The sampling and analysis changes we agreed to during the
meeting have been submitted to you under separate correspondence
as Modification #2 to the RI/FS Project Plans for Sites 6, 9, 48,
and 69 for Marine Corps Base Camp Lejeune. As work crews are
currently obtaining samples at these sites, we respectfully
request you review this modification to the referenced Project
Plans and provide comments by October 8, 1992. Otherwise, we
will assume your tacit approval of this modification.
