MARINE CORPS BASE
PSC BOX 20004
CAMP LEJEUNE, NORTH CAROLINA 28542-0004

IN REPLY REFER TO:

6286

BEMD

18 APR 1995

From: Commanding General, Marine Corps Base, Camp Lejeune
To: Commander, Atlantic Division, Naval Facilities Engineering
Command, Attn: Linda Saksvig (Code 1823), 1510 Gilbert
Street, Norfolk, Virginia 23511-2699

Subj: DRAFT PROPOSED REMEDIAL ACTION PLAN AND RECORD OF DECISION
FOR OPERABLE UNIT NO. 4

Encl: (1) Comments concerning the Draft Proposed Remedial Action
Plan for Operable Unit No. 4
(2) Comments concerning the Draft Record of Decision for
Operable Unit No. 4

1. The subject documents have been reviewed by the Installation
Restoration Division. Our comments are contained in enclosure
(1) and (2).

2. If you have any questions or comments, please contact Mr.
Neal Paul, Director, Installation Restoration Division,
Environmental Management Department, at telephone (910) 451-5068.

A handwritten signature in black ink, appearing to read "Robert L. Warren".

ROBERT L. WARREN

By direction

**Comments concerning the Draft Proposed Remedial
Action Plan for Operable Unit No. 4**

General comments:

1. According to this report, the Information Repository and Administrative Record file are maintained at "Building 67, Room 237." The room number should be corrected throughout the document to "Room 238."
2. The phone number for the Onslow County Library is (910) 455-7350.

Specific comments:

1. Page 2-2, first paragraph: The following statement "Grease was reportedly disposed of in trenches, then backfilled" is supported by neither the Initial Assessment Study (IAS) nor the Site Summary Report (SSR). While both the IAS and SSR delineate the disposal of grease, no references to backfilling exist.
2. Page 2-4, section 2.3.2, fourth bullet: This bullet should also be included as part of section 2.3.1.
3. Page 5-6, section 5.2.1: A statement concerning the previous fencing of Site 74 should be included.
4. Page 8-3: The name "Mr. Thomas Morris" should be changed to "Mr. Neal Paul."

Comments concerning the Draft Record of Decision
for Operable Unit No. 4

General comment:

The fact that IR Site 74 has already been fenced as part of Camp Lejeune's institutional controls should be mentioned in this report.

Specific comments:

1. Page 2-1, third paragraph: The following statement "Grease was reportedly disposed of in trenches, and then the trenches were backfilled" is supported by neither the Initial Assessment Study (IAS) nor the Site Summary Report (SSR). While both the IAS and SSR delineate the disposal of grease, no references to backfilling exist.
2. Page 2-2, first bullet: The term "dichlorofluoromethane" should be replaced with "dichlorodifluoromethane."
3. Page 4-1, first paragraph: The term "soil former disposal area material" is ambiguous. Replace this phrase with "soil, and disposal material."
4. Page 5-2, third bullet: This bullet should also be included as an element of section 5.1.
5. Page 7-1, paragraph 1: Delete "The former remedial alternatives developed for Site 74 are quite similar to the alternatives presented for Site 41."
