Subj: Record of Decision
Operable Unit 4, Sites 41, & 74
MCB Camp Lejeune NPL Site
Jacksonville, North Carolina

Dear Sir:

The U.S. Environmental Protection Agency (EPA) Region 4 has reviewed the above subject decision document and concurs with the selected remedy for the Remedial Action at Sites 41 & 74. This remedy is supported by the previously completed Remedial Investigation, Feasibility Study and Baseline Risk Assessment Reports.

The selected remedy consists of institutional controls designed to prevent future potential exposure. The controls include restricting land use and potable well installation and a groundwater, surface water and sediment monitoring plan. This remedial action is protective of human health and the environment, complies with Federal and State requirements that are legally applicable or relevant and appropriate to the remedial action and is cost effective.

Sincerely,

John H. Hankinson, Jr.
Regional Administrator
