## Comments

1. The long term monitoring plan does not explain the frequency of sampling. **Will samples be taken at quarterly intervals for the first year, second year, third year?**

2. The last sentence in the Preface states, "The data collected during long term monitoring will be provided to the DoN, Marine Corps, and regulatory agencies so that recommendations, given acceptance, may be implemented. **How will this data be presented? Will an annual report be prepared? If so, will it contain a narrative and/or data or just data sheets? The data should be presented along with recommendations on the effectiveness of the monitoring. What is meant by "given acceptance"?**

3. Verify that the **most recent version of the SOP** is being referenced. I sent an electronic version of the new SOP via E-mail. Give me a call if you did not receive it.
