Navy CLEAN, District III  
Contract Task Order (CTO) 0340  
Final Proposed Remedial Action Plan  
Operable Unit No. 13- Site 63, Verona Loop Dump  
Marine Corps Base (MCB) Camp Lejeune, North Carolina

Dear Ms. Landman:

I am pleased to submit on behalf of Baker Environmental, Inc. (Baker) three bound and three unbound copies of the Final Proposed Remedial Action Plan (PRAP) for Operable Unit No. 13, MCB, Camp Lejeune, North Carolina. Two copies of the Final PRAP have also been forwarded to Mr. Neal Paul at MCB, Camp Lejeune. Additional copies have been distributed to representatives of USEPA Region IV, NC DEHNR, OHM Corporation, NEHC, and ASTDR. One copy of this document has been distributed to each member of the Review Advisory Board; Technical Review Committee members have been notified of the document's availability.

Due to the unlikely prospect that site-related risks pose either current or future threats to potential human and ecological receptors, this Final PRAP details the No Further Remedial Action Alternative for OU No. 13. Comments concerning the proposed remedy will be addressed at the upcoming Public Meeting to be held on November 6, 1996 in Jacksonville, North Carolina.

Please contact me at (412) 269-2051 or Mr. Matthew Bartman (Activity Coordinator) at (412) 269-2053 with any questions or concerns you may have.

Sincerely,

BAKER ENVIRONMENTAL, Inc.

  
Thomas F. Trebilcock  
Project Manager
