Re: Contract N62470-89-D-4814  
Navy CLEAN, District III  
Contract Task Order (CTO) 0303  
Operable Unit (OU) No. 6  
Sites 36, 54 and 86  
Marine Corps Base (MCB), Camp Lejeune, NC

Dear Ms. Rossi:

Please find enclosed a copy of the following technical documents related to the natural attenuation of both chlorinated solvents and petroleum hydrocarbons in groundwater:

- Technical Protocol for Evaluating Natural Attenuation of Chlorinated Solvents in Groundwater, Draft-Revision I dated November 1996
- Technical Protocol for Implementing Intrinsic Remediation with Long-Term Monitoring for Natural Attenuation of Fuel Contamination Dissolved in Groundwater, Volumes I and II - dated November 11, 1995

To my knowledge, these copies include the most recent information related to the necessary field parameters and what the field parameters represent with respect to natural attenuation. Both of the documents were published by the Air Force Center for Environmental Excellence, San Antonio, Texas.

If I can be of further assistance, please give me a call at (412)269-2062 or Mr. Richard Bonelli at (412)269-2033.

Sincerely,

BAKER ENVIRONMENTAL, INC.
