From: Officer in Charge
To: Commandant (LFF-2), Marine Corps, Washington, DC 20386
Subj: NACIP Initial Assessment Study at MCB Camp Lejeune and MCAS Cherry Point
Ref: (a) OPNAVNOTE 6240 Ser 45/733503 of 11 Jan 1980
(b) MCO 6280.1 of 30 Jan 1981
(c) Navy Assessment and Control of Installation Pollutants (NACIP) Program:
Guide for Conducting an Initial Assessment Study, NEESA 20.2-035
(d) CNO ltr Ser 451/33503 of 11 Sep 1980

1. The Navy Assessment and Control of Installation Pollutants (NACIP) program, reference (a) and (b) provides for identification, assessment, and control of environmental contamination from past storage, use, and disposal of chemicals and hazardous materials at Navy and Marine Corps Activities. Details of the NACIP program are discussed in reference (c).
2. Under the NACIP program, the Naval Energy and Environmental Support Activity (NEESA), in coordination with an Engineering Field Division (EFD) of the Naval Facilities Engineering Command, conducts an Initial Assessment Study at an activity to ascertain the potential for contamination of the environment. This team of engineers and scientists reviews archival and activity records, interviews activity personnel, and makes an on-site inspection of the activity. If, as a result of the study, contamination is suspected, a follow-on confirmation study and corrective measures will be initiated by the cognizant EFD. If no contamination is found, no further action is required.
3. In reference (d), the Marine Corps Base (MCB), Camp Lejeune, NC; and the Marine Corps Air Base (MCAS), Cherry Point, NC; have been designated for an Initial Assessment Study (IAS). NEESA is providing, by separate correspondence, details of the NACIP study and support requirements to MCB Camp Lejeune and MCAS Cherry Point. Additional informational concerning the records search, Command brief, and on-site visitation will be forwarded when scheduling is completed.
4. The NEESA point of contact for this study is Mr. Eakes, Code 112N, A/V 360-3351, FTS 799-3351, or commercial (805) 982-3351.
