Proposed Remedial Action Plan  
Operable Unit 10 - Site 35

Dear Ms. Landman:

The Environmental Protection Agency (EPA) has completed its review of the above subject document. There are no significant comments. However, a representative listing of the contaminants and concentrations should be added to figure 8. It should include at least the high and low areas of contaminants. This will provide a visual of the contaminant concentrations and the potential impact to Brinson Creek.

If you have any questions or comments, please call me at (404) 562-8538.

Sincerely,

A handwritten signature in black ink, appearing to read "Gena D. Townsend".
