Contract Task Order (CTO) 0312
Final Groundwater Modeling Report
Operable Unit No. 9 (Site 73)
MCB, Camp Lejeune, North Carolina

Dear Ms. Montegross:

Baker Environmental, Inc. (Baker) is pleased to submit three complete copies of the Final Groundwater Modeling Report for Operable Unit No. 9 (Site 73). Due to the significance of comments received on the Draft submittal, it was prudent to issue the report in its entirety rather than issuing replacement pages. An unbound copy has been provided for inclusion into the Administrative Record.

This document has been modified in accordance with Baker's response to comments issued by MCB, Camp Lejeune, United States Environmental Protection Agency (USEPA) Region IV, and North Carolina Department of Environment and Natural Resources (NC DENR).

Two copies of this submittal have been forwarded to the Environmental Management Department at MCB Camp Lejeune. Additional copies have been provided to the USEPA Region IV and NC DENR in accordance with the attached transmittal letters.

Baker appreciates the opportunity to serve LANTDIV on this project. Should you have any questions regarding this submittal, please contact me at (412) 269-2063 or Mr. Matthew Bartman (Activity Coordinator) at (412) 269-2053.

Sincerely,

BAKER ENVIRONMENTAL, INC.
