Navy CLEAN, District III
Contract Task Order (CTO) 0369
Draft Site Investigation Report
Site 10 - Original Base Landfill
MCB, Camp Lejeune, North Carolina

Dear Ms. Montegross:

On behalf of Baker Environmental, Inc. (Baker) I am pleased to submit for your review and comment a single copy of the Draft Site Investigation (SI) Report for Site 10 - Original Base Landfill. Two copies of the SI Report have been forwarded to Mr. Mick Senus at the Environmental Management Department MCB, Camp Lejeune. Four copies of the report have been submitted to the United States Environmental Protection Agency (USEPA) Region IV. Three copies have been submitted to representatives of North Carolina Department of Environment and Natural Resources (NC DENR). A single copy has been submitted to the Agency for Toxic Substance and Disease Registry (ATSDR) and the Naval Environmental Health Center (NEHC) as presented in the attached transmittal letters.

The only risk identified at the site was the consumption of water from the surficial aquifer. However, it is very unlikely that the surface aquifer will ever be a potable water source in the vicinity of Site 10. Based on this fact, we recommend no further investigative or remedial action be taken at Site 10.

We appreciate the opportunity to serve LANTDIV on this project. Should you have any questions regarding this submittal, please contact me at (412) 269-2098 or Mr. Thomas F. Trebilcock (Activity Coordinator) at (412) 269-2051.

Sincerely,

BAKER ENVIRONMENTAL, INC.

James S. Culp, P.G.
