DELIVERY ORDER 0050

Dear Mr. Dunn:

LANTDIV has reviewed the Health and Safety Plan for Site 89 LTTD Soil Remediation, as well as the Revised Draft Work Plan for the Creek Aeration System and have no comments at this time. The Work Plans are approved for implementation of all site activities that must precede the actual excavation and treatment of soil in the thermal desorption unit. This includes (but is not limited to) fencing work, aerator construction, mobilization tasks, and construction of concrete pads for the LTTD unit and associated equipment. Additional comments on the soil excavation and LTTD treatment is anticipated from the regulators, LANTDIV, and the base shortly, these comments will be provided to you as soon as possible. However, given the time-critical nature of the work, it is imperative to the schedule that the preliminary tasks proceed immediately.

The approvals contained herein were previously provided via email. A follow-on letter will approve all work including the soil excavation and LTTD following receipt of all
